

Document Pagination

The document model paginates long content, reserves footer space, repeats table headers, and accepts explicit page breaks.

Paragraph 22: generated report content that flows across pages while keeping normal margins and footer space.

Paragraph 23: generated report content that flows across pages while keeping normal margins and footer space.

Paragraph 24: generated report content that flows across pages while keeping normal margins and footer space.

Paragraph 25: generated report content that flows across pages while keeping normal margins and footer space.

Paragraph 26: generated report content that flows across pages while keeping normal margins and footer space.

Paragraph 27: generated report content that flows across pages while keeping normal margins and footer space.

Paragraph 28: generated report content that flows across pages while keeping normal margins and footer space.
